## **Developer - Associate Program Guide**

## Welcome to the program!

Validate your skills in developing, deploying, and debugging cloud-based applications on AWS by earning the AWS Certified Developer - Associate certification. This training program is designed to help AWS Partners prepare for the exam with confidence.

The program includes self-paced digital training and weekly live sessions led by AWS Training Architects. These sessions provide exam strategy insights, real-world use cases, and hands-on demonstrations of AWS services.

Throughout the program, AWS Certified Instructors will guide you to:

Connect what you learn to real-world customer solutions

Develop an exam success strategy

Apply knowledge and test concepts through a series of practice exam questions

## Who should participate?

This offering is recommended for partners with:

- Foundational knowledge of cloud computing
- 1+ years of experience with cloud technology
- A basic understanding of cloud-native applications and experience in using development tools

### How do I get started?

Step 1: Set up your AWS Partner Network (APN) account using your business email.

**Step 2:** Next, sign into <u>AWS Skill Builder</u> as an AWS Partner using the credentials from Step 1. Enroll into the <u>Learning Plan</u> created for this program.

**Optional:** Build practical skills with an <u>AWS Skill Builder Individual subscription</u>.

## Limited time offer - claim your 33% exam discount\*

Schedule your AWS Certified Developer - Associate exam. At checkout, enter discount code AWAP799F775C.

The discount code is valid from May 25 to August 31. Exams must be taken by August 31.

\*Terms and Conditions apply. Explore FAQs.

## **Detailed Program Overview**

Task	Description	Action	
Week 1 - Kickoff and Technical Essentials			
Attend the Kickoff	Join our training architects to kick start your learning journey. They will cover important information for the program and help get you started.	Review the Exam Guide	
Digital Training	It's critical you access your digital materials each week. Get started with the program and complete these trainings from your AWS Skill Builder learning plan:  • AWS Technical Essentials • AWS Compute Services Overview • Build with Amazon EC2  If you'd like to go hands-on with AWS - consider subscribing to AWS Skill Builder and complete these AWS Builder Labs:  • Introduction to Amazon DynamoDB • Introduction to AWS Lambda	From your AWS Skill Builder <u>Learning Plan</u>	
Week 2 - Development with AWS Services (Part 1)			
Live Study Session	Join our training architects for exam tips and tricks with practice questions and real-world use cases for what you are learning.		
Digital Training	This week, complete these trainings from your AWS Skill Builder learning plan:  • AWS Database Offerings  • Amazon ElastiCache Getting Started  • Getting into the Serverless Mindset  • Amazon DynamoDB for Serverless Architectures  If you'd like to go hands-on with AWS - consider subscribing to AWS Skill Builder and complete these AWS Builder Labs:  • Introduction to Amazon API Gateway  • Frontend is for Everyone	From your AWS Skill Builder Learning Plan	
Schedule Your Exam	Register for a virtual or in-person exam through Pearson VUE using your AWS Certification account.	Schedule Exam	
Week 3 - Development with AWS Services (Part 2)			
Live Study Session	Join our training architects for exam tips and tricks with practice questions and real-world use cases for what you are learning.

## Frequently Asked Questions (FAQs)

#### Will the live session be recorded?

Yes, the live session will be available on-demand and shared with registered participants via email.

# What should I do if I receive a 403 error when accessing courses in AWS Skill Builder?

Make sure that you choose to log into Skill Builder as an AWS Partner and enter your APN Partner Central account information.

#### How do I register for the AWS Developer - Associate exam?

To register for an exam, create an account or sign in at <a href="mailto:aws.training/certification">aws.training/certification</a>, then navigate to Exam Registration and follow the prompts. Still need help? Get step-by-step guidance on <a href="mailto:how to register for an exam as an AWS Partner">how to register for an exam as an AWS Partner</a>.

### How much does the AWS Developer - Associate exam cost?

The AWS Certified Developer - Associate exam fee is 150 USD.

### How do I share my AWS Certification achievement with my employer?

<u>Watch this video tutorial</u> to learn how to provide consent for your employer to view your certifications. Remember - your AWS Certification belongs to you and you can always change this setting if your employer changes.

# My AWS Certification account name doesn't match my legal ID. How can I update my profile?

To change your name on your AWS Certification Account, submit a ticket to the <u>AWS Training and Certification Support team</u>. Select *Account Assistance* as the inquiry type and Name Change as the additional details, and include the requested information in the description. If needed, our Support team will request documentation to process the edit. Once all necessary information is submitted, allow up to two days for the change to be processed.

### Who should I contact if I experience technical issues?

Having issues with Skill Builder? Review the <u>AWS Skill Builder support website</u> or <u>contact support</u> with specific details about the challenge you're encountering.

Experiencing issues with APN Partner Central? Contact the APN Support team directly.

### What if I have additional questions about AWS Certification?

Browse the AWS Certification FAQs on our website. Review the AWS Partner Certification tab.
